

## **INTERVIEW SUMMARY**

The undersigned and the Examiner conducted a telephonic interview on Friday, March 23, 2007. Proposed amendments to the claims were discussed in view of the statements on pages 3 and 4 in the outstanding final Office action regarding enabled subject matter. The undersigned understood the following from the interview. The Examiner suggested reformulating subject matter of claims 34-40 in claims having a preamble different than claim 25 (please see claims 61-78 herein). The Examiner also suggested utilizing the term “particles” for claims directed to *in vivo* applications (please see claims 79-95 herein). The Examiner suggested specification support should be indicated for the terms “FKBP12” and “FKBP12(V36)” (please see discussion hereafter).
